

Fall Arrest Eyebolt

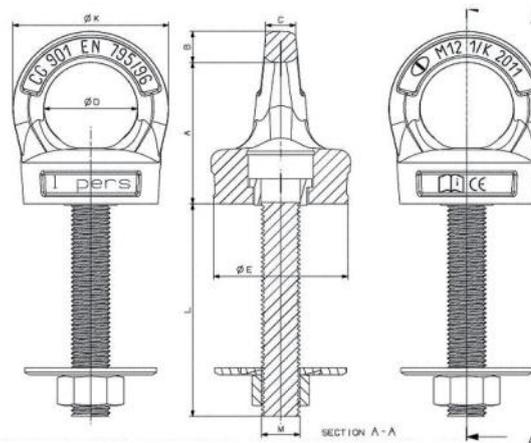

Fall Arrest Eyebolts are a safe point to which you anchor your body harness (harness in conformity with EN361) and a suitable attachment system (in conformity with EN362) to prevent falls from height and their effects due to working at height.

- ◆ Available in Short Shank and Long Shank
- ◆ Safety coefficient 4
- ◆ The threaded hole must be perpendicular to the supporting structure
- ◆ The device is designed to enable disassembly only with the specific spanner provided with the device
- ◆ Tighten the device until it fits tight against the surface

Product Code	Size	Capacity	A (mm)	B (mm)	C (mm)	D ∅ (mm)	E ∅ (mm)	K ∅ (mm)	L (mm)	Torque Setting (Nm)	Weight (Kg)
