PRODUCT NAME

SpanHoist II

ORDER CODE:

SPANHOIST-4-12.5

WHAT IS IT?

(Product Description):

The SpanHoist is a rope pulley system design to be used for work positioning, access and rescue applications. The pulley system can be used by an individual to get themselves into the correct position, or can be operated remotely by a 2nd worker.

WHAT CAN IT BE USED FOR?

(Intended Function):

The SpanHoist has been designed and tested to be part of recovery system; this means that the pulley system can be used to lift / lower you in the event of an emergency. It can also be used as part of a Work Position System that suspends you while you work.

WHAT CAN I USE WITH IT?

(Compatibility):

The SpanHoist is compatible with the following equipment and their associated systems;

- The 2-XR Confined Space and Rescue Harness
- CLIMA Full Body and Sit Harness
- Work Seats
- Casualty Harness

If you are unsure of any equipment and its compatibility with the SpanHoist please contact SpanSet Ltd..

WHO CAN USE IT?

(Competence, Size and Adjustment):

Work at height can be a high risk activity. It is therefore essential that all users are competent in the pre use inspection, installation and use of this item.

The SpanHoist is a 4 fall pulley system and so you are only able to achieve a lowering distance of 1/4 of the ropes original length. Careful consideration should be given to choosing the right rope length before purchasing the kit. The SPAN-4-12.5 has a 50metre rope and is able to lower a maximum distance of 12.5metres.

HEIGHT SAFETY

SpanHoist II

HOW LONG WILL IT LAST?

(Maintenance, Inspection and Lifespan):

The lifespan of the SpanHoist is limited by the following;

- The product has a maximum shelf-life of 10 years from the date of manufacture.
- The product has a maximum service-life of 5 years from the date of first use.
- The lifespan may also be reduced by the effects of damage or wear and tear.

The lifespan will cease at the point when any one of these conditions is met.

The condition of the product must be controlled in accordance with BS8437:2005, this requires regular inspections to be carried out by a competent person.

HOW HAS IT BEEN TESTED?

(Relevant Standard And Quality Assurance)

The Spanhoist is CE marked under the Personal Protective Equipment Directive.

The CE marking process includes independent testing to EN1496:1996 – Rescue Equipment – Rescue Lifting Devices.

The SpanSet manufacturing process is quality controlled and audited by the British Standards Institute to the international standard for quality management ISO9001:2008.

WHAT IS IT MADE FROM AND WHY?

(Specification and Materials):

- Lightweight Anodised Aluminium Pulleys
- 11mm Semi-static kermantle rope for durability
- Twist-lock karabiners for secure connection
- Roll top storage bag with shoulder carry straps
- Roundsling Attachment strop for secure anchorage to structures.

Additional SpanSet Features:

Individual Serial Numbering – All SpanSet Height safety products are individually serial numbered for traceability.

WHAT PAPERWORK IS SUPPLIED?

(Product Records and Information)

Multilingual Instructions

Multilingual Instructions with pictorial guide

Individual Product History Card – This record card contains all the documentation required to maintain the product. The front forms the European Declaration of Conformity and the table on the reverse can be completed to form the inspection record.

Pocket Inspection Guide – This simple to follow pocket card identifies the key areas requiring inspection.

WHAT TRAINING IS REQUIRED?

(Competency):

Although in itself this is a simple item to use, there are three stages that should be considered as part of the process as a whole. Training is available for all the stages outlined at the SpanSet training school in Middlewich or subject to suitability on a site of your choice:

Assessment and planning - Training Module 9 Management of Work At Height

Use - Training Module 1 Height Safety Equipment Appreciation and Inspection followed by an appropriate practical module.

Inspection and Maintenance - Training Module 1 and Module 7 Competent Person Practical Inspection & Record Keeping.

All training for work at height is conducted in accordance with BS8454:2006 and is audited as part of our ISO9001:2008 quality management system.
