

CHRYSALIS casualty stretcher

MS01

Versatile roll stretcher with patented integral casualty harness

Features:

- · Horizontal or vertical lift
- · Integral fall arrest harness
- · Configured for rapid deployment
- High visibility, abrasion resistant and waterproof outer case.
- Rolls-up into KARI 50L storage bag (B50)
- · Supplied complete with bag and lifting bridle

Can be lifted horizontally via the removable 6 point bridle or vertically via the attachment point at the head.

Integral harness conforms to dynamic performance requirements of EN 361 (full body fall arrest harness). Tested with 4m fall, mass of 125kg. For static vertical and horizontal lifting, SWL of 260kg, based on a Factor of Safety of 10:1.

6 casualty restraint straps with quick connect buckles. Integral harness is fitted with 2 quick connect buckles and adjusted with one hand. Stores flat to minimise movement of casualty when fitting. Adjustable foot stirrup and head strap can be fitted once the casualty is secure.

Bright colours aid use in low light conditions. Tough fabric resists abrasion and water ingress and can be washed down after use. Plastic stiffening sheet cam be removed allowing the stretcher to be machine washed.

Rolls up for compact storage.

MHRA Registered.

Patented GB 2 403 422

Specifications:

NB: specifications and colour may change without notice.

Size: n/a

EN Test Mass: 125kg with 4m fall

Loading: 125kg dynamic,

260kg static for vertical / horizontal lifting F.O.S. 10:1

Conformity: MDD 93/42/EEC as amended by Directive 2007/47/EC (Class 1 Medical Device)

Materials: Polyamide /polyester load bearing elements, PVC cover & plastic fittings. Stainless steel buckles.

Weight (kg): 9.00

Industries: All forms of rescue and casualty handling
