

Product ID:
RGH5 Super Glow

Product Name:
High Visibility Glow-in-the-Dark
Rescue Harness

RGH5

An unique confined space harness featuring phosphorescent and reflective yarns that provide extra visibility in low-light conditions. Phosphorescent webbing takes in light energy and will glow for several hours afterwards.

The chest and leg straps comprise quick release buckles for simplicity of donning. The rescue strap can be used for lifting and lowering, and also be used in certain fall arrest situations.

The addition of a flexible rear D pad provides additional comfort. The inclusion of easy slide shoulder buckles increases the speed and range of adjustment. Tail tidies allow for convenient and neat storage of excess webbing following adjustment.

The way the harness has been designed minimises the amount of rigid webbing edges.

Accredited to:

EN 361:2002
EN 1497:2007

Web material:

45mm water repellent polyester with phosphorescent and reflective yarn

Fittings:

High tensile steel alloy

Weight:

1.4kg
